

20th European Symposium on Urogenital Radiology - ESUR 2013

September 19 - 22, 2013
Harbiye Museum and Cultural Centre, Istanbul

PROVISIONAL PROGRAMME

Thursday 19 September - Members Day

14:00 - 15:30	Session 1 (Scientific Presentations) (Moderators: Michel Claudon, Gertraud Heinz-Peer)
16:00 - 17:30	Session 2 (Scientific Presentations) (Moderators: Harriet Thoeny, Sami Moussa)
17:30 - 18:00	ESUR Update by ESUR President
20:00	Members' Dinner Announcement of Award Winning Paper of the Members' Day Presentations (Michel Claudon, ESUR President)

Friday 20 September

08:00 - 18:00	Registration
	Poster Exhibition
08:55 - 09:00	Welcome address (Michel Claudon, Ahmet T. Turgut)
09:00 - 10:30	Lecture session 1 - Imaging of Renal Tumors (Moderators: Isaac R. Francis, Mazda Memarsadeghi) 1. Imaging and management of incidental renal masses (Seung Hyup Kim) 2. Role of image guidance in renal sparing management of RCC (Francesco M. Danza) 3. Is it time to develop guidelines for the follow-up of treated RCC? Imaging perspective (Marie France Bellin, Nicolas Grenier) 4. Is it time to develop guidelines for the follow-up of treated RCC? Clinical perspective (Öner Şanlı)
11:00 - 12:30	Lecture session 2 - Controversies in Prostate Cancer Imaging (Moderators: Jonathan Richenberg, Jelle Barentsz) 1. What does Urologist expect from Uro-Radiologist on detection/staging of PSA detected PCa? (Bob Djavan) 2. Prostate biopsy after MRI: cognitive fusion with TRUS? MR-guided? TRUS/MRI fusion? (Masoom Haider) (Jurgen Futterer)(Alex Kirkham) 3. Endorectal coil for mpMRI: Is it necessary?:(Barış Turkbey) (Vibeke Logager) (Sadhna Verma)(Francois Cornud) Debate and vote 4. 3T MRI for prostate - is it important? (Valeria Panebianco)(H. Alberto Vargas) 5. MR Spectroscopy - crucial for diagnosis or just a research tool? (Geert Villeirs) (Jelle Barentsz) 6. Panel Discussion (All speakers and the audience)

12:30 - 13:30	Lunch Symposium (BAYER)
13:30 - 15:00	<p>Lecture session 3 - Female Genital Tract Tumors (Moderators: Margarida Teresa Cunha, Marta Heilbrun)</p> <ol style="list-style-type: none"> 1. Advanced ovarian cancer: predicting resectability and response (Deniz Akata) 2. Functional Imaging in advanced disease of the uterus and cervix (Corrine Balleyguiere) 3. Challenging female pelvic tumor cases; mistakes I have made-I (Andrea Rockall) 4. Challenging female pelvic tumor cases mistakes I have made-II (Rosemarie Forstner)
15:30 - 17:00	<p>Workshops</p> <p>I) Oncologic imaging of the female genital tract (Moderators: John Spencer, Celine Alt)</p> <ol style="list-style-type: none"> 1 Rare tumors of the uterus (Nishat Bharwani) 2. Rare tumors of the ovary (this could include germ cell tumours and metastases) (Isabelle Thomassin-Naggara) 3. Tumors of the vagina and vulva: the role of imaging in treatment planning and follow-up (Rosemarie Forstner) 4. Patterns of metastatic disease spread in the female pelvis (Atif Zaheer) 5. PET CT in gynecological malignancies - evidence, findings and pitfalls (Raghu Vikram) 6. Complications following treatment of gynaecologic cancers (Çağla Tarhan)
	<p>II) Renal vascular imaging (Moderators: Süreyya Özbek, Anders Magnusson)</p> <ol style="list-style-type: none"> 1. Renal Doppler Ultrasound (Diana Gaitini) 2. CTA and MRA/Evaluation of renal artery stenosis (Ruhi Onur) 3. Interventional procedures for hypertension (Boris Brkljadic) 4. Preoperative imaging assessment of renal donors and recipients (Errol Colak) 5. Vascular complications of the transplanted kidney (Michel Claudon)
	<p>III) Interventional procedures in GU disorders (Moderators: Devrim Akıncı, Sami Moussa)</p> <ol style="list-style-type: none"> 1. Renal tumor ablation (Nicolas Grenier) 2. Image guided therapy of the prostate cancer (Mark Emberton) 3. Embolization of male varicocele (Sami Moussa) 4. Intensification of the interaction between Urologists and Interventional Radiologists (Jochen Walz)
	<p>IV) Functional Imaging and Tissue Characterization of the Urogenital Tract (Moderators: Harriet Thoeny, Bernd Hamm)</p> <ol style="list-style-type: none"> 1. Role of PET-CT/MR-PET imaging (Raj Paspulati) 2. Elastography (Jean Michel Correas) 3. Renal CT perfusion (Mike Notohamiprodjo) 4. Renal MR perfusion (Hersh Chandarana)
	<p>V) Tumor mimics and uncommon tumors of the GU tract (Moderators: Takehiko Gokan, Ayşe Erden)</p> <ol style="list-style-type: none"> 1. Uncommon upper urinary tract tumors (Parvi Ramchandani) 2. Uncommon lower urinary tract tumors (Lorenzo Derchi) 3. Pseudotumors (Vikram Dogra) 4. Retroperitoneal tumors (Sameh Hanna)

17:45 - 18:00	Opening Ceremony
18:00 -	Welcome Reception (<i>Backyard of the Congress Venue</i>)

Saturday 21 September

08:30 - 10:00	<p>Lecture session 4 - Imaging of Urothelial Tumors (Moderators: Nicolas Grenier, Nevra Elmas)</p> <ol style="list-style-type: none"> 1. Imaging of urothelial tumors: the urologist's perspective (Tim Larner) 2. The upper urinary tract urothelial cancer (Mustafa Ozmen) 3. Bladder cancer (Richard Cohan) 4. Post-operative imaging (Vibeke Logager)
10:30-11:15	GUERBET Invited Lectures
11:15 - 12:45	<p>Lecture Session 5 Combined ESGAR Session Personalized treatment of abdominal tumors: General Principles (Moderators: Michel Claudon, Luis Marti Bonmati)</p> <ol style="list-style-type: none"> 1. Future developments in imaging of urothelial carcinoma (Maria Cova) 2. Can we differentiate RCC subtypes with imaging (Raymond Oyen) 3. Vascular disorders of the liver: a roadmap for imaging diagnosis (Filipe Caseiro-Alves) 4. MR Imaging biomarkers in rectal cancer (Andrea Laghi)
12:45 - 13:45	Lunch Symposium (BRACCO)
13:45- 14:15	<p>Lecture Session 6 SAR HONORARY LECTURE (Moderators: Ahmet Tuncay Turgut, Michel Claudon) New Horizons in Prostate imaging (Vikram Dogra)</p>
14:15 - 14:30	Awards for winning papers from Members Day
14:30 - 15:30	<p>Lecture Session 7 Contrast Agents and Safety (Moderators: James Ellis, Jarl Jakobsen)</p> <ol style="list-style-type: none"> 1. Kidney function - eGFR, questionnaire etc. (Georg Bongartz) 2. Contrast media and the kidney (Sameh Morcos) 3. Acute non-renal adverse reactions - new data (Olivier Clement) 4. Nephrogenic systemic fibrosis - 7 years on (Henrik S. Thomsen)
16:00- 17:30	<p>Workshops</p> <p>I) Adrenal Tumors (Moderators: Nick Papanikolaou, Gürsel Savcı)</p> <ol style="list-style-type: none"> 1. Comprehensive Imaging Algorithm of the Incidental Adrenal Masses (Paul Nikolaidis) 2. The role of new imaging techniques- PET-CT and DWI in adrenal imaging (Gertraud Heinz-Peer) 3. Malignant adrenal tumors and treatment options (Phil Kenney)

	<p>II) Imaging of the patient with hematuria (Moderators: Wael Shabana, Mehmet Ertürk)</p> <ol style="list-style-type: none"> 1. IVP and US: Role in future? (Julian Keanie) 2. Non-contrast CT and CT urography (Ercan Kocakoç) 3. MR urography (Tarek Eldiasty) 4. Which modality is appropriate for hematuria? Interactive case discussion (Catherine Roy)
	<p>III) Male Genital Tract Tumors (Moderators: Raymond Oyen, Lorenzo Derchi)</p> <ol style="list-style-type: none"> 1. Incidentally detected testicular tumors (Wui Chong) 2. Extratesticular scrotal tumors (Mustafa Seçil) 3. Penile lumps (Michele Bertolotto) 4. Testicular sparing surgery (Erdem Canda)
	<p>IV) Imaging of infectious diseases of GU tract (Moderators: Adnan Kabaalioğlu, Tarek Eldiasty)</p> <ol style="list-style-type: none"> 1. Hydatid disease (Okan Akhan) 2. Non-hydatid parasitic infections (Mohamed Abou El Ghar) 3. Acute and chronic pyelonephritis (Jeffrey Newhouse) 4. Infectious diseases of the male and female genital tract (Gabriele Masselli)
	<p>V) Infertility (Moderators: Parvati Ramchandani, Jo McHugo)</p> <ol style="list-style-type: none"> 1. How to manage infertile couple: gynaecologist's perspective (Bülent Tıraş) 2. Role of imaging in female infertility (Theodore J. Dubinsky) 3. How to manage infertile couple: urologist's perspective (Ateş Kadioğlu) 4. Role of imaging in male infertility (Pietro Pavlica)

Sunday 22 September

08:30 - 10:00	Scientific Paper Presentations (I-V)
10:15 - 11:45	<p>Lecture session 8 - Pediatric Urogenital Imaging (Moderators: Michael Riccabona, Ulrich Willi)</p> <ol style="list-style-type: none"> 1. Pitfalls in imaging urogenital masses during childhood: case based demonstration of common problems - how to image, who they look, what to look for, and differences from common approaches in adults. (Ulrich Willi) 2. Impact of recommendations and guideline on clinical practise - does it matter at all? Results of an European questionnaire. (Michael Riccabona) 3. Contrast enhanced US of the childs' urinary tract revisited. (Papadopoulou F, Ntoulia K., Darge K., Riccabona M.) 4. News from the paediatric urology task force. (Michael Riccabona) 5. Paediatric genital & pelvic tumours: imaging approach, differential diagnosis, typical examples (Mithat Haliloğlu)
11:45 - 12:45	Film Interpretation Session (Moderators: Lorenzo Derchi, Michel Claudon)
12:45 - 13:00	Award presentation: Best Scientific Paper and Poster
13:00 - 13:10	Closing Remarks
